SHORTCUTS

Key	Purpose
$mod + Return	terminal
$mod + d	dmenu_run
$mod + Control + d	i3-dmenu-desktop
$mod + j(k,l,uring)	Focus left(down, up, right) window
$mod + x	Focus on latest urgent window
$mod + Left(Down,Up,Right)	Focus left(down, up, right) window
$mod + Shift + j(k,l,uring)	Move focused window left (down, up, right)
$mod + Shift+ Left(Down,Up,Right)	Move focused window left (down, up, right)
$mod + h	Split the current container horizontally
$mod + v	Split the current container vertically
$mod + f	Fullscreen mode for the focused container
$mod + s	Change the current container layout (toogle split)
$mod + w	Change the current container layout (stacking)
$mod + e	Change the current container layout (tabbed)
$mod + o	Move the whole workspace to the next output
$mod + Shift + minus	Make the currently focused window a scratchpad
$mod + minus	Show the first a scratchpad window
$mod + Shift + space	Toggle floating status of the focused container
$mod + space	Change focus between tiling and floating windows
$mod + a	Focus parent container
$mod + (1-9,0)	Switch to workspaces with number 1-10
$mod + Shift + (1-9,0)	Move the container to the workspaces with number 1-10
$mod + Shift + c	Reload the configuration file
$mod + Shift + r	Restart I3 inplace
$mod + Shift + e	Log out
$mod + r	Activate resize mode
Mod1 + Control + l	Loct the system
Mod1 + Control + delete	Activate power mode (reboot, shutdown, suspend, hybernate)
Print	Activate print mode
$mod + Shift + d	Activate display mode
$mod + n	ncmpcpp
$mod + period	ranger
$mod + m	mc
$mod + t	notification with date
$mod + n	notification with npc current playing
$mod + i	notification with IP address
$mod + Shift + s	notification with free space on disks
$mod + Shift + h	show shortcuts help
$mod + p	notification with pomodoro status

Key	Purpose
$mod + Control + y	mpc prev
XF86AudioPrev	mpc prev
$mod + Control + x	mpc play
XF86AudioPlay	mpc play
$mod + Control + c	mpc toggle
$mod + Control + v	mpc stop
XF86AudioStop	mpc stop
$mod + Control + b	mpc next
XF86AudioNext	mpc next
XF86MonBrightnessUp	xbacklight -inc 20
XF86MonBrightnessDown	xbacklight -dec 20
XF86Calculator	xcalc
XF86AudioRaiseVolume	pactl set-sink-volume 1 +5%
XF86AudioLowerVolume	pactl set-sink-volume 1 -5%
XF86AudioMute	pactl set-sink-mute 1 toggle
$mod+KP_Add	pactl set-sink-volume 1 +5%
$mod+KP_Subtract	pactl set-sink-volume 1 -5%
$mod+KP_Multiply	pactl set-sink-mute 1 toggle
